TECHNICAL SKILLS

- **Programming & Computing:** Python, SQL, C, Shell Scripting, Object-Oriented Programming, Data Structures & Algorithms (academic)
- **Data & Analytics:** Data Analysis, Data Validation, Exploratory Data Analysis (EDA), Statistical Analysis, Automation, Reporting & Dashboards
- **Cyber & Systems Exposure:** UNIX/Linux, Access Controls, Data Integrity, Secure Data Handling, Monitoring & Logging Concepts
- **IT & Platforms:** ServiceNow, Dynatrace, CA ESP, SDSF, ISPF, Autosys, DB2, AS400
- **Mathematics & Logic:** Applied Mathematics, Probability & Statistics, Algorithmic Thinking, Optimization Concepts
- **Tools:** Git, Jupyter Notebook, Microsoft Excel (Advanced), Power BI, Tableau (Exposure), MS 365 Suite
- **Professional Skills:** Collaboration, Problem Solving, Communication, Integrity, Adaptability, Continuous Learning

EDUCATION

Advanced Diploma, Computer Engineering Technology | GPA: 3.8
Seneca Polytechnic College, Toronto, ON

Jan 2024 - April 2027

PROFESSIONAL EXPERIENCE

Bank of Montreal (BMO), Toronto, ON

May 2025 - December 2025

Operations Analyst Intern/Co-op

- **Contributed to real-world technology and data initiatives** by analyzing system outputs using **Python, SQL**, and **UNIX tools**, in collaboration with operations, infrastructure, and technology teams, resulting in **improved system reliability** and **data accuracy**.
- **Supported secure and stable operations** by monitoring enterprise workflows and batch processes, partnering with cross-functional teams, maintaining **99.9% uptime** for **critical systems**.
- Performed **data validation, reconciliation**, and **troubleshooting**, collaborating with IT and business stakeholders, **reducing repeat issues** and improving **operational continuity**.
- **Automated recurring checks and reports**, applying scripting and analytical techniques, **reducing manual effort** and **improving turnaround time**.
- **Documented procedures, workflows**, and **findings**, supporting governance, audit readiness, and knowledge transfer.

Sport Chek

July 2024 - Present

Customer Service Representative and Retail Cashier

- Provided **exceptional customer service** by assisting over 30 customers daily, increasing **customer satisfaction scores by 15%**
- **Managed point-of-sale systems** efficiently, maintaining **100% accuracy** in cash transactions and reducing checkout time by 10%
- Supported team initiatives that improved store operations, contributing to a 20% increase in monthly sales

Freelance Data Analyst

August 2023 - April 2025

- Applied **data science** and **analytics techniques** using **Python** and **SQL** to solve business problems, collaborating with clients, **resulting in a 15% improvement in operational efficiency**.
- Built **automated data pipelines** and **dashboards**, validating data quality and accuracy, supporting **data-driven decision making**.
- Translated **business requirements** into **analytical solutions**, demonstrating strong problem-solving and communication skills.

Bank of Montreal (BMO), Toronto, ON

September 2025 - December 2025

Student/Social Squad Ambassador | Volunteer

- Supported **employee engagement** and **culture initiatives** by coordinating events, communications, and outreach, collaborating with cross-functional volunteers and internal teams, **strengthening teamwork** and **organizational connection**.
- Prepared **summaries** and **presentation materials** for diverse internal audiences, enhancing **clarity, communication**, and **stakeholder alignment**.

Seneca Polytechnic

September 2024 - Present

President – Seneca Disruptive Technologies Club | Volunteer

- Directed a team of **150+ members** to plan and deliver hackathons and technology workshops, boosting engagement by **30%**.
- Oversaw **budget planning** and **resource allocation**, ensuring transparency and alignment with strategic objectives.

PROJECTS

Recession Risk & Yield Curve Analysis (Python, SQL) | [\(GitHub\)](#)

- Analyzed **large economic datasets** using Python and SQL, applying statistical techniques, demonstrating **applied mathematics** and **analytical thinking**.

E-Commerce Data Analysis in SQL | [\(GitHub\)](#)

- Designed and executed complex **SQL queries** to analyze **sales trends** and customer behaviors, providing actionable insights

T20-Cricket-Descriptive-Sports-Analysis | [\(GitHub\)](#)

- Analyzed Indian Men's Cricket Team's data for **descriptive sports analysis** and **derived key numeric statistics**
